MEXICAN INDEPENDANCE

A Lecture by Professor Sal Diaz

Mexican Independence Day is an important holiday celebrated by millions of people of Mexican heritage. Many of us are familiar with the basic sketches of the events and have heard names like Padre Hidalgo, and Morelos, but most don't know the actual story nor the real dates of Mexican Independence—it is not Cinco the Mayo!

In this lecture, we will cover the actual details of the struggle for independence and cover the important connections that Mexico's Independence has to the US, Latin America, and Europe.

Professor Sal Diaz has taught various history courses at SRJC for 16 years. He is originally from a small town in California's central valley. He currently lives here in Santa Rosa with his wife, and three children.
